

I object to FCC proposal 02-278 for the following reasons:

- *Indiana already has a telephone privacy law that is very effective.

- *The FCC should not adopt rules that reduce Indiana's protections.

- *Indiana's telephone privacy law has significantly improved my quality of life by reducing unwanted telemarketing calls to nearly none. We can actually eat dinner without interruption now. What a great concept!

Please do not usurp Indiana's well-designed and functional telephone privacy law with a lower national standard. It is unnecessary and unwanted here.
